INTREN is an award-winning WBE specialty contractor that serves the nation’s largest utilities, private contractors and developers, municipalities, and cooperatives. Our Construction Management Services division provides innovative, sustainable management, engineering, and workflow solutions designed to overcome challenges, increase results, and minimize risk.

From start to finish, we work closely with clients to plan and execute projects. This approach allows us to capitalize on our diversity and flexibility, keep projects on-schedule and on-budget, and provide the exceptional quality needed to help clients reach their goals.

Within a drastically shifting industry, we evolve to continue safely serving clients in various industries with the same level of service and expertise. Trust INTREN with business consulting, project management, staffing support—and more.

OUR CONSTRUCTION MANAGEMENT CAPABILITIES INCLUDE:

PROJECT MANAGEMENT
INTREN brings a unique perspective to comprehensive planning, supporting not only your construction projects but also the internal systems and personnel that support them.

CONSTRUCTION MANAGEMENT
Time lines, budgets, and project coordination—without all the stress of big-business logistics. The INTREN team offers a more personal approach to construction management, truly getting to know each client and treating each project as if it was our own.

ENGINEERING EXPERTISE
Clients turn to INTREN with their projects because of our experience and unique approach to project and program management. To best meet clients’ needs, INTREN partners with established, credible energy industry, design, and engineering professionals on many projects.

FEATURED PROJECT
During the height of the drought in the Central Valley of California (from 2016 to 2018), one of our utility customers was in need of a custom solution. The challenge? A backlog of design and construction for new business requests from the agricultural community.

We proposed a turnkey program that facilitated the design, planning, construction, and closeout of over 300 projects. The team successfully completed the program with no safety or distribution incidents, eliminated the design backlog for the area, drove over $3 million in savings for the client due to elimination of handoffs, and increased customer satisfaction. In addition, the team was able to exceed expectations in terms of timing. Most designs were completed in the expected four weeks, and construction was completed in two to four weeks (with an expectation of four).
INTREN is changing the face of construction. We’ve been outperforming for our customers for 30 years—integrating our core values into the way we do business and serving as stewards of our customers’ goals.

SAFETY
INTREN is committed to achieving best-in-class safety every single day. It’s what sets us apart. We reach toward our company-wide commitment of “target zero” through comprehensive safety protocols, along with ongoing and extensive education, training, and collaboration. Safety is about caring for our employees, our clients, and the customers they serve.

QUALITY
The INTREN customer-centric, ISO 9001:2015-compliant quality program is agile, scalable, and financially responsible. Our quality program provides stakeholders pragmatic solutions developed by subject matter experts that improve processes, create efficiencies, lower costs, and reduce waste.

CUSTOMER FOCUS
INTREN is an industry leader that delivers custom, innovative, and comprehensive solutions. We develop long-term partnerships while treating our customers’ needs as our own.

DIVERSITY
As one of the largest owned and operated WBEs in the utility contractor sector, INTREN is a first-tier 100% MWBE with a robust second-tier mentoring program and over 60 active registered MWBE companies. Whether it’s through a minority jobs training program or our support of diverse organizations nationwide, INTREN is committed to building excellence through diversity.

ENVIRONMENTAL SUSTAINABILITY
INTREN has made significant strides in measuring and reducing our impact on the environment. We’ve also begun to make long-term investments in technology and techniques that reduce emissions, and are dedicated to staying ahead of customer demands. From purchasing 50% renewable clean energy to utilizing eco-friendly vehicles and non-potable water for boring, INTREN has turned commitment into action!

When a new challenge arises, call 815.923.2300 or email your INTREN representative. We’re ready to find a one-of-a-kind solution for you!

OutPerforming. Everyday.
