INTREN is an award-winning WBE specialty contractor that serves the nation’s largest utilities, private contractors and developers, municipalities, and cooperatives.

We complete complex underground projects for major natural gas utilities nationwide, with a focus on infrastructure installations, repairs, and maintenance in an increasingly competitive natural gas marketplace. Our highly experienced team specializes in innovative and custom natural gas utility solutions for urban and rural construction projects while producing unrivaled results with the utmost commitment to safety and quality.

OUR GAS UTILITY CAPABILITIES INCLUDE:

- Main extension and replacement
- Service installation and replacement
- Conversion projects
- Station work
- Storage fields
- Disconnects, reconnects, and relights
- Metering installation and replacement
- Automated meter reading and installation
- Vault installation and replacement
- Inspection services
- Pipeline integrity
  - Excavation
  - Repair
- Core boring and hydro excavation
- GPS facility data collection capabilities
- Cathodic protection
  - Anodes
  - Rectifiers
- Directional drilling
  - Pre- and post-sewer main televising
  - Gas service bore televising

FEATURED PROJECT

INTREN’s gas division was originally awarded a 3-mile, 12-inch steel transmission gas main project located in southern Illinois. Along the way, the utility customer added several phases and the final installed pipe ended up measuring approximately 9 miles long.

The project included both open-cut and directional bore installation through a mixture of agricultural fields and challenging pipeline right-of-way terrain. The new pipe’s hydro testing, drying, and tie-ins were all completed without schedule impact or quality issues. Overall, the entire project was completed on schedule and without an injury or operational incident.
INTREN is changing the face of construction. We’ve been outperforming for our customers for 30 years—integrating our core values into the way we do business and serving as stewards of our customers’ goals.

SAFETY
INTREN is committed to achieving best-in-class safety every single day. It’s what sets us apart. We reach toward our company-wide commitment of “target zero” through comprehensive safety protocols, along with ongoing and extensive education, training, and collaboration. Safety is about caring for our employees, our clients, and the customers they serve.

QUALITY
The INTREN customer-centric, ISO 9001:2015-compliant quality program is agile, scalable, and financially responsible. Our quality program provides stakeholders pragmatic solutions developed by subject matter experts that improve processes, create efficiencies, lower costs, and reduce waste.

CUSTOMER FOCUS
INTREN is an industry leader that delivers custom, innovative, and comprehensive solutions. We develop long-term partnerships while treating our customers’ needs as our own.

DIVERSITY
As one of the largest owned and operated WBEs in the utility contractor sector, INTREN is a first-tier 100% MWBE with a robust second-tier mentoring program and over 60 active registered MWBE companies. Whether it’s through a minority jobs training program or our support of diverse organizations nationwide, INTREN is committed to building excellence through diversity.

ENVIRONMENTAL SUSTAINABILITY
INTREN has made significant strides in measuring and reducing our impact on the environment. We’ve also begun to make long-term investments in technology and techniques that reduce emissions, and are dedicated to staying ahead of customer demands. From purchasing 50% renewable clean energy to utilizing eco-friendly vehicles and non-potable water for boring, INTREN has turned commitment into action!

At INTREN, we understand reliable natural gas delivery is essential—that’s why you can count on us to expertly complete your next project. Just give us a call or visit INTREN.com to get started.

OutPerforming. Everyday.
