INTREN is an award-winning WBE specialty contractor that works with the nation’s largest utilities, contractors and developers, municipalities, and cooperatives. Over the years, we’ve earned the trust of our utility partners by helping them empower customers, businesses, and communities with reliable electrical infrastructure.

Although our crews take on projects of all sizes, we specialize in turnkey, custom electric utility solutions for large-scale design/build ventures. The crucial services we provide range from overhead and underground installations and repairs to ongoing maintenance, design, and upgrades—all completed with a focus on safety and quality.

OUR OVERHEAD DISTRIBUTION CAPABILITIES INCLUDE:

- New construction
- Rebuild construction
  - Reconductor work
  - Line clearance
  - 4 kV to 12 kV conversions
  - 4 kV to 34.5 kV conversions
- System reinforcement programs (storm hardening) and spacer cable installation
- Facility relocation
  - Road expansion assistance
  - Overhead-to-underground line conversions
- Deteriorated wood pole replacement programs
- Overhead power line resources
- Maintenance
- Hendrix Aerial Cable Systems
- Distribution automation
  - Automatic line reclosers
  - TripSavers
  - Smart meters
  - Mid-circuit reclosers
- Above primary cellular antennas/devices

OTHER ELECTRICAL SERVICES:

- Transmission
- Substation
- Underground residential distribution
- Heavy underground network systems
- Storm and emergency response
- Distribution fault repair
- Directional boring
- Specialty services

FEATURED PROJECT

INTREN installed new poles and 636 conductors in preparation for a 4.8 kV delta to 13.2 kV wye conversion. This was to accommodate the construction of a new international bridge into Canada, and to provide the foundation for a future total system conversion and upgrade of the utility’s 4.8 kV delta system.

The major challenge was that the infrastructure had deteriorated and needed upgrades. There were hazards associated with the existing structures and conductors. Our crews were required to be extra vigilant and cautious while performing even the simplest of tasks. Proper, thorough planning and prejob discussions were essential to this project’s success.
INTREN is changing the face of construction. We've been outperforming for our customers for 30 years—integrating our core values into the way we do business and serving as stewards of our customers’ goals.

OUTPERFORMING. EVERYDAY.

WHAT CAN YOU EXPECT WHEN YOU WORK WITH INTREN?

SAFETY
INTREN is committed to achieving best-in-class safety every single day. It’s what sets us apart. We reach toward our company-wide commitment of “target zero” through comprehensive safety protocols, along with ongoing and extensive education, training, and collaboration. Safety is about caring for our employees, our clients, and the customers they serve.

QUALITY
The INTREN customer-centric, ISO 9001:2015-compliant quality program is agile, scalable, and financially responsible. Our quality program provides stakeholders pragmatic solutions developed by subject matter experts that improve processes, create efficiencies, lower costs, and reduce waste.

CUSTOMER FOCUS
INTREN is an industry leader that delivers custom, innovative, and comprehensive solutions. We develop long-term partnerships while treating our customers’ needs as our own.

DIVERSITY
As one of the largest owned and operated WBEs in the utility contractor sector, INTREN is a first-tier 100% MWBE with a robust second-tier mentoring program and over 60 active registered MWBE companies. Whether it’s through a minority jobs training program or our support of diverse organizations nationwide, INTREN is committed to building excellence through diversity.

ENVIRONMENTAL SUSTAINABILITY
INTREN has made significant strides in measuring and reducing our impact on the environment. We’ve also begun to make long-term investments in technology and techniques that reduce emissions, and are dedicated to staying ahead of customer demands. From purchasing 50% renewable clean energy to utilizing eco-friendly vehicles and non-potable water for boring, INTREN has turned commitment into action!
