INTREN is an award-winning WBE specialty contractor that works with the nation’s largest utilities, private contractors and developers, municipalities, and cooperatives. From system maintenance to large-scale design/build ventures, our cross-disciplinary experience produces unrivaled results with the utmost commitment to safety and quality.

With more than three generations of transmission experience in our portfolio, we have seasoned crews ready to serve you with the level of safety, quality, and customer focus you have come to expect from INTREN.

**OUR TRANSMISSION CAPABILITIES INCLUDE:**

- Voltages from 69 kV to 345 kV
- Gen tie
- New construction
- Maintenance
- Foundations
- Lattice towers
  - New builds
  - Modifications
  - Replacements
- Pole installations
  - Steel/monopole
  - Wood
  - Concrete
  - H-structure
- Conductor installation and replacement with bundle conductor expertise
- Switch installation and repair
- URD cable installation and splice support
- OPGW/shield wire installation
- Helicopter line installation and maintenance

We own specialized off-road equipment and provide 24/7 emergency response.

**OTHER ELECTRICAL SERVICES:**

- Substation
- Overhead distribution
- Underground residential distribution
- Heavy underground network systems
- Storm and emergency response
- Distribution fault repair
- Directional boring
- Specialty services

**FEATURED PROJECT**

This transmission project in Rend Lake, IL, consisted of rebuild/reconductor work on 11 miles of 138 kV lines that involved traversing through water and constructing towers on the lake’s “islands.” Other complex water-crossing jobs that we have completed include passing through the Mississippi River (a 4,300-foot span) as part of a 138 kV reconductor and shield wire fiber replacement project.
INTREN is changing the face of construction. We've been outperforming for our customers for 30 years—integrating our core values into the way we do business and serving as stewards of our customers’ goals.

Transmission

OVERVIEW

SAFETY
INTREN is committed to achieving best-in-class safety every single day. It’s what sets us apart. We reach toward our company-wide commitment of “target zero” through comprehensive safety protocols, along with ongoing and extensive education, training, and collaboration. Safety is about caring for our employees, our clients, and the customers they serve.

QUALITY
The INTREN customer-centric, ISO 9001:2015-compliant quality program is agile, scalable, and financially responsible. Our quality program provides stakeholders pragmatic solutions developed by subject matter experts that improve processes, create efficiencies, lower costs, and reduce waste.

CUSTOMER FOCUS
INTREN is an industry leader that delivers custom, innovative, and comprehensive solutions. We develop long-term partnerships while treating our customers’ needs as our own.

DIVERSITY
As one of the largest owned and operated WBEs in the utility contractor sector, INTREN is a first-tier 100% MWBE with a robust second-tier mentoring program and over 60 active registered MWBE companies. Whether it’s through a minority jobs training program or our support of diverse organizations nationwide, INTREN is committed to building excellence through diversity.

ENVIRONMENTAL SUSTAINABILITY
INTREN has made significant strides in measuring and reducing our impact on the environment. We’ve also begun to make long-term investments in technology and techniques that reduce emissions, and are dedicated to staying ahead of customer demands. From purchasing 50% renewable clean energy to utilizing eco-friendly vehicles and non-potable water for boring, INTREN has turned commitment into action!

WHAT CAN YOU EXPECT WHEN YOU WORK WITH INTREN?

We’re ready to go above and beyond in providing you with solutions-focused transmission services. Call or email your INTREN representative about initiating a new project.

OutPerforming. Everyday.
