INTREN is an award-winning WBE specialty contractor that serves the nation’s largest utilities, private contractors and developers, municipalities, and cooperatives. Our vegetation management team utilizes multiple practices to effectively clear vegetation, keeping it a safe distance from electrical lines or other utilities, while also identifying and removing hazard trees. This work increases safety and allows for convenient access to power lines, which in turn improves electrical system reliability.

In addition to clearing designated areas manually or with quality equipment, our experienced crews are licensed to use environmentally friendly pesticides to prevent regrowth and ensure that non-targeted areas remain healthy.

OUR VEGETATION MANAGEMENT CAPABILITIES INCLUDE:

- Maintenance mowing
- Tree pruning
- Tree clearing and removal
- Herbicide application
- Risk mitigation and identification of hazard trees
- Emergency response and equipment

Sudden or extreme weather conditions can impact the need for vegetation management. INTREN is available to provide 24/7 emergency response.

FEATURED PROJECT

As part of the construction of new 345 kV transmission lines for an electric utility in Illinois, we cleared several long portions of land along a 375-mile stretch from Palmyra, Missouri, to Sugar Creek, Indiana, with a 150-foot-wide total right-of-way clearance. The Illinois rivers project work took three years and multiple crews to complete. INTREN was on site for the full duration of the project, which was completed with zero OSHA recordables and no lost time work cases.
INTREN is changing the face of construction. We’ve been outperforming for our customers for 30 years—integrating our core values into the way we do business and serving as stewards of our customers’ goals.

WHAT CAN YOU EXPECT WHEN YOU WORK WITH INTREN?

SAFETY
INTREN is committed to achieving best-in-class safety every single day. It’s what sets us apart. We reach toward our company-wide commitment of “target zero” through comprehensive safety protocols, along with ongoing and extensive education, training, and collaboration. Safety is about caring for our employees, our clients, and the customers they serve.

QUALITY
The INTREN customer-centric, ISO 9001:2015-compliant quality program is agile, scalable, and financially responsible. Our quality program provides stakeholders pragmatic solutions developed by subject matter experts that improve processes, create efficiencies, lower costs, and reduce waste.

CUSTOMER FOCUS
INTREN is an industry leader that delivers custom, innovative, and comprehensive solutions. We develop long-term partnerships while treating our customers’ needs as our own.

DIVERSITY
As one of the largest owned and operated WBEs in the utility contractor sector, INTREN is a first-tier 100% MWBE with a robust second-tier mentoring program and over 60 active registered MWBE companies. Whether it’s through a minority jobs training program or our support of diverse organizations nationwide, INTREN is committed to building excellence through diversity.

ENVIRONMENTAL SUSTAINABILITY
INTREN has made significant strides in measuring and reducing our impact on the environment. We’ve also begun to make long-term investments in technology and techniques that reduce emissions, and are dedicated to staying ahead of customer demands. From purchasing 50% renewable clean energy to utilizing eco-friendly vehicles and non-potable water for boring, INTREN has turned commitment into action!

We look forward to providing you with vegetation management services customized to fit your needs. Contact INTREN to discuss your project today!

OutPerforming. Everyday.
